 - 11) Other important responsibilities in the Rajya Sabha
 - 12) Sansad Adarsh Gram Yojana
 - 13) Issues taken up
 - 14) Visits abroad
-

PREFACE

In Bharatiya Janata Party (BJP), right since Jan Sangh days, there is a tradition of releasing a report to the Electorate. Many like Late Sh. Rambhau Mhalgi, - in whose memory Rambhau Mhalgi Prabodhini was established, wherein I had the privilege of being its first functionary - and others including Sh. Ram Naik, Sh. Nitin Gadkari, etc. have had continued with this tradition. In tune with the same, a very brief activity report has been prepared by me and is presented herewith.

Multiple responsibilities came to me in the period between, July 2016 to June 2017. They mainly include, National Vice-President of BJP, Vice-Chairman of Rambhau Mhalgi Prabodhini and National In-Charge of Good Governance and Policy Research Departments. As expected, Parliament and parliamentary responsibilities also kept me busy. Every position in public life bestows upon you some responsibilities and it also makes you answerable to those who repose their confidence in you. It is in this backdrop that this report has been prepared, to provide a glimpse into the multifarious activities that I have participated in and the projects or assignments undertaken.

I thank my colleague Ravi Pokharna in helping me compile the same and also Vivek Srivastava and Dibyajyoti Mohapatra in designing it in a presentable manner.

Vinay Sahasrabuddhe,
Member of Parliament, Rajya Sabha
National Vice President, Bharatiya Janata Party

- 2) Dhaka, Bangladesh representing the BJP at the Awami Party's Triennial Conference on October 22nd, 2016.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses, income, and transfers between accounts.

The second part of the document provides a detailed breakdown of the accounting process. It starts with the identification of the accounting period, followed by the collection and classification of data. The next steps involve the recording of transactions in the journal, the posting of these transactions to the ledger, and the preparation of trial balances to verify the accuracy of the books.

The third part of the document focuses on the preparation of financial statements. It explains how the data from the ledger is used to create the balance sheet, the income statement, and the statement of cash flows. Each statement provides a different perspective on the company's financial performance and position.

The fourth part of the document discusses the importance of internal controls and the role of the auditor. It highlights how strong internal controls can prevent errors and fraud, while an independent audit provides assurance to stakeholders that the financial statements are reliable.

The fifth and final part of the document covers the closing process. It details the steps involved in closing the books for the period, including the transfer of balances to the next period and the preparation of closing entries. This process is essential for starting the new accounting period with a clean slate.
